

UTPA

COMM 4103.01.

Paper: At the end of the term, you will write a 2-3 page reflection paper. This paper must be typed, double-spaced with a 1" margins. Font size must be 12 point.

Please respond to the following prompt: The communication department should (or should not) continue requiring practicum. Take one position and then support it (using your experiences as "evidence"). Be specific so that I may fully understand how your volunteer work contributed to or detracted from your overall education.

If you are not a Communication major, your prompt is: A service learning course should or should not be required of UTPA students. The same requirements apply regarding your discussion of your experiences.

There are no right or wrong answers on this paper, only well-supported or poorly-supported answers. Give me lots of examples of how your experiences effected your education.

PLEASE NOTE: College level writing is required. Visit the writing center if you need help with proofreading. Papers with more than five typos or grammatical errors will receive a ZERO.
